Experiences

Data Annotator

01-02-2024 to 31-03-2024

PEROPSIS Ltd, Cyprus

Worked as Data Annotator (Part-time). The task was to annotate satellite images using Label Studio for dumping detection model. Gained experience in data preparation for Deep learning/Computer vision with a focus on accuracy and detail.

Data Analyst

2023-🔄

Self Learning

I am transitioning into a career as a data analyst, dedicating my time to mastering data analysis and visualization tools. I have actively participated in hackathons, undertaken freelance projects, and completed self-taught projects in Microsoft Power BI to enhance my skills and gain practical experience in this field.

Assistant Manager

2015-2022

Prestige Groups

I'm a civil engineer with over 10 years of experience as a quantity surveyor. I've worked with data for billing, contracts, BOQ, and project reports in both interior and civil projects. This has helped me build strong skills in understanding and presenting data, which I'm now using to start a career as a data analyst.

Education

Bachelor of Engineering

2006-2010

Visvesvaraya Technological University

BE in Civil Engineering from KLS Gogte Institute of Technology, Belagavi, Karnataka, India.

Projects

Pixar Films in Data

21-03-2025

Designed an interactive dashboard showcasing 30 years of Pixar films, highlighting box office performance, audience reception, and awards through effective data storytelling.

More Details: jyotiharti.github.io/projects/project-8/Pixar_films.html

Spotify Streaming Trend Analysis

31-01-2025

Analyzed and visualized complete Spotify streaming history, including track, artist, album, timestamps, and user behavior for track play and end reasons.
